Subject: RE: Post-IARC Activities to Support Glyphosate

All,

Here is what I think I heard (and 1 question) in our meeting today – please send any corrections/additions

Conduct & publish Meta-analysis

- We will recommend proceeding with this

Publish updated AHS study data

- We will recommend proceeding with this
- David will check at HARC meeting next week if there is interest in CLA requesting data for all chemistries

Genetox/MOA

- Set-up 1 hr meeting with Gary Williams & Larry Kier to better understand what could be done (who had this action item?)

Publication on Animal Data Cited by IARC

- It was noted that this is only other idea that could be done prior to IARC Monograph publication
- It was noted this would be more powerful if authored by non-Monsanto scientists (e.g., Kirkland, Kier, Williams, Greim and maybe Keith Solomon)
- Decide within 1-2 weeks if we will recommend going forward with this

Other Action item

- Donna to talk with Elizabeth about value in sending letter to editor on Meta-analysis
- Check with Richard on status of Elizabeth's dietary exposure manuscript – Bill send email to Richard

Thanks,

Bill

A couple of you will need to leave at 1:50 to make a 2:00 pm meeting in C on Monday. This will be a weekly meeting; they were to be re-occurring but because everyone's calendar is almost full, I will probably have to make them separate days and times each week.
